## ABOUT THE COURSE

### TAJWEED

The Arabic word Tajweed is derived from its root word "j – w – d" which means to make well, make better or to improve. The set of rules governing the way in which the word of Quran should be pronounced during its recitation. Tajweed is a very common term in the context of Quran recitation it comes from linguistically means enhancement or making something outstand. Learning of Tajweed is Very important because the Holy Quran is the speech of Almighty Allah , a divine message mercy and guidance from Allah to all humanity .it contains Knowledge rules and recommendation about all aspects of life and references to the hereafter. So it is very important to recite Quran with Tajweed to avoid mistakes in pronouncing words of Allah.

ABOUT THE COURSE

DIPLOMA IN TRANSLATION

Arabic is one of the six official languages designated by the United States government acknowledges the importance of studying Arabic and has expressed such acknowledgement by adding Arabic to its critical languages program. The Arabic Translation Certificate would enable non – native speakers, heritage learners and native speakers not only to improve their command of Arabic language, but also to achieve a professional level of using both dialect and standard Arabic in translation. Students can combine their majors with a healthcare and medicine, political science, social science, and humanities. A professional in any of those fields may have a better hiring opportunity if they also prove they can serve their employers as translators as well. Arabic translators convert documents, websides or any other type of communication written in Arabic to another language and vice versa. They may work as in person translator or receive and submit their work electronically.

**Name of the Programme** : Certificate Course in "Industrial Biotechnology"

**Dates** : 10<sup>th</sup>-jan-2022 to 10<sup>th</sup>-april-2022

**Details of the resource persons** :

**Name** : Dr. Md. Asimuddin

**Designation** : Director Biomarker Research Laboratory.

### **Objective of the Program:**

- 1) The course aims to provide fundamental insights to exploit enzymes and microbes for the manufacturing of products which have a huge industrial significance.
- 2) It uniquely blends the science and engineering with various biochemical processes to obtain products of diverse fields such as chemicals, food, bioenergy etc.

### **Topics Covered:**

- Industrial Sterilization
- The exploitation of enzymes
- The exploitation of microorganisms
- The exploitation of plants to produce energy
- Industrial chemicals
- Consumer goods.
- Chemical Reaction Engineering.
- Analytical Techniques in Biotechnology.

### **Outcome of the Program:**

- 1) The course introduces major group of microorganisms and tools in Biotechnology and their applications.

**About The College**

Anwarul Uloom College New Mallepally, Hyderabad, is one of the largest autonomous institution, affiliated to Osmania University. The college had been accredited by NAAC with 'A' grade. The college is committed to create awareness among young minds towards global issues and is an excellent platform for the future of young aspiring minds. The college is one of the oldest and most prestigious Muslim minority institution of higher education not only in Telangana State but also in India.

**About The DEPT. of Botany**

The department Botany had its inception in the year 1964 and became full fledged as under Graduate Centre in 1981. The staff of the department has innovative teaching and research abilities. The department has been updating the curriculum and have introduced the choice based credit system (CBCS). The legendary department has national recognition because of the dynamic contribution of our talented faculty members.

**About The Course**

Organic farming, agricultural system that uses ecologically based pest controls and biological fertilizers derived largely from animal and plant wastes and nitrogen-fixing cover crops. Modern organic farming was developed as a response to the environmental harm caused by the use of chemical pesticides and synthetic fertilizers in conventional agriculture, and it has numerous ecological benefits.

### Objectives of the program

This course is intended for Masters's students because they work with plants while earning their degrees, and it can help them comprehend the idea of organic farming, the techniques used in it, and how they apply to various plants. In addition to safeguarding the environment and public health, organic farming has several advantages over conventional farming. These include enhancing soil fertility, improving water quality, preventing soil erosion, and providing rural jobs, etc.

### Learning objectives of the program

The value-added course was based on "Plants-based diet benefits." The Resource Person was Mrs. Nazia, the Head of the Department of Nutrition and a Clinical dietitian. The eight-day plant-based diet benefits course was very intriguing, informative and inspiring as the students from all streams attended the course. Since there is no substitute for good health and we can only stay fit and fine when we are a healthy, sound mind and sound body, students were eager to learn about the benefits of a plant-based diet for maintaining good health. This knowledge was necessary for them to perform well in class and manage the stress in their daily lives. This value-added course received a favourable reaction.

### Details of the resource person

**Name:** Dr. Majid Mohiuddin

M.Sc. (Microbiology), (Ph.D.)

**Designation:** HOD, Microbiology department

**Institution:** Anwarul Uloom College

### Objectives of the program

The value-added course on "Careers in Plant Sciences" was very successful as the students from science backgrounds were enthusiastic about attending this informative course. Dr. Majid started the session with an introduction to the "Careers In Plant Sciences." He explained the importance of Microbiology in day-to-day life. He also suggested specific web portals of science and gave information regarding the application of plant science in research

He recommended numerous paths for a successful future. As they learn about the new science courses that enable them to pursue fulfilling occupations in their lives, students' responses have generally been positive.

1. To create awareness among the students about their future career
2. To develop the student's career employability skills
3. Students should know about the skill development, job-oriented

## Objectives of the program

The M.Sc. 1-year students in this programme were chosen explicitly since they deal with a taxonomy covering many plant species. Students learn about the different bioactive components present in the different plant extracts. The students from all academic streams who attended the 8-day course on phytochemicals found it to be highly engaging, educational and motivating. This course helps the learners learn about the different secondary metabolites and the bioactive components in the different plant parts. The course aims to achieve the following objectives.

- The purpose of this course is to make the students understand the importance of phytochemical (plant-based chemicals)
- To emphasize the importance and structure of phytochemicals
- To understand the uses of phytochemical nutrients in maintaining good health

## Project Management

**Credits : 30**  
**Hours : 30**  
**Academic Year: 2021 - 2022**

### About the Course

A project is a temporary task or Endeavour which is designed to produce a product or service and is undertaken to meet the goals and objectives within a time frame.

Project Management courses help an individual in developing his/her skills in the setting of a goal and its completion in a professional setting. A candidate pursuing Project Management course learns how to organize and administer business projects. Furthermore, students have the tools and techniques at hand that can help them manage the risks, adapt to the changes thereby increasing an organization's effectiveness.

One of the most important aspects that a student pursuing a Project Management course learns is how to juggle more than one project at once. Project Management can be pursued as a full-time, part-time or online course.

A Project Management course prepares an individual on how to strategize and take decisions in the real business world.

## About the Course

Entrepreneurship is found everywhere in every place. In our day to day lives, we use a variety of products and services that were a result of entrepreneurs. Entrepreneurs may head start with a dream to bring out an invention or solution and he may also have the enthusiasm to bring it to reality.

However, if they don't have the necessary skills to take off and establish their projects they may land up in hard times. So, who is an Entrepreneur? And what is Entrepreneurship? The individual who creates a new enterprise and takes up the challenges that come with its formation, operation, and development is an entrepreneur.

Entrepreneurship refers to the process of creating and handling such an enterprise with the motive of making the profit or gains. Entrepreneurship requires hard work, commitment, enthusiasm, resilience, and determination.

Entrepreneurs are extremely motivated entities. They not only create new and great business ideas but also carry the skills to translate that business idea into a successful business outcome.

## PROGRAMME REPORT

Name of the Programme	:	The importance and usefulness of Deccani language
Date	:	19/ 01/ 2022
Detail of the Resource Persons	:	Dr Noori Khatoon Asst Prof & HOD (URDU) Women's College of Koti

### Objective of the Programme:

The Language and Communication Skills Program was organized by the Department of Urdu Anwar Uloom College. The purpose of this course was to create awareness among the students about language and presentation. This has been confirmed by the unanimous decision of all the teachers of the Urdu department. According to this topic, the importance and usefulness of mother tongue and Deccani language have been told among the students. Also, the learning of sciences in one's mother tongue has been emphasized and the attention has been paid to it by highly educated individuals and governments. Along with this, knowledge of Deccani language along with studies in the mother tongue, rules and employment opportunities were also discussed. It is hoped that such courses will be conducted in the future so that students can ensure the acquisition of new information apart from the textbooks.

## PROGRAMME REPORT

Name of the Programme : Value Added Course (IoT), Conducted by Department of Computer Science.

Dates : 2<sup>nd</sup> August 2021 to 31<sup>st</sup> August 2021.

Resource Person : Mr. Shaik Rawoof  
(Associate Professor, A.U.C.)  
Mrs. Asmath Jabeen  
(Assistant Professor, A.U.C.)

### Objectives of the Course:

1. To provide an understanding of Internet, understanding IoT fundamentals, IoT Architecture, Protocols, Form of Platforms, real time examples.
2. Introduce the Arduino Simulation Environment, Arduino Architecture, Setup the IDE, Writing Arduino Software.
3. Introduce Sensor and Actuators with Arduino, Interfacing of temperature, Humidity, Motion.
4. Introduce Basic networking, Wireless networking, Wifi module, Wifi Library.
5. Introduce IoT, Protocols, M2M versus IoT, Cloud Platform for IoT.

### Topics Covered :

- Basic concepts of Internet, understanding IoT fundamentals, IoT Architecture, Protocols, Form of Platforms, real time examples of IoT.
- Arduino Simulation Environment, Arduino Architecture, Setup the IDE, Writing Arduino Software
- Sensor and Actuators with Arduino, Interfacing of temperature, Humidity, Motion.
- Basic networking, Wireless networking, Wifi module, Wifi Library.
- IoT, Protocols, M2M versus IoT, Cloud Platform for IoT.

### Outcomes: Students are able to

1. Understanding of Internet, understanding IoT fundamentals, IoT Architecture, Protocols, Form of Platforms, real time examples.
2. Install Arduino Simulation Environment, Arduino Architecture, Setup the IDE, Writing Arduino Software.
3. Use Sensor and Actuators with Arduino, Interfacing of temperature, Humidity, Motion.
4. Classify Basic networking, Wireless networking, Wifi module, Wifi Library.
5. Understand IoT, Protocols, M2M versus IoT, Cloud Platform for IoT.

## **COURSE DESCRIPTION AND OBJECTIVES**

The Department of zoology is starting certificate course in clinical laboratory techniques. Clinical analysis towards accurate diagnostic and prognosis of patients is well established. This has been selected in order to generate personal, trained appropriately in theory and practical of clinical laboratory techniques. The syllabus of this is so designed, aiming at providing adequate theoretical background on the clinical aspects related to physiological chemistry and instrumentation. Necessary trust is being given in the practical aspects of the clinical diagnosis by providing predetermined practical exercises. Further, students would undertake field work in the clinical atmosphere at appropriate diagnostic laboratories and hospitals within Hyderabad region

## ABOUT THE COURSE

### WOMEN'S STUDIES

Women's studies is an academic field that draws on feminist and interdisciplinary methods to place women's lives and experiences at the centre study. Women's studies programs and courses are designed to explore the inter sectionality of gender, race, class and other topics that are involved in identity politics and societal norms through a feminist lens. For all of us, knowledge of women's strengths and contribution builds respect and nourishes self esteem.

## Anwarul Uloom college, Department of Mathematics

Quantitative aptitude is an inseparable and an integral part of aptitude exams in India. It tests the quantitative skills along with logical and analytical skills. One can test their own number of handling techniques and problem-solving skills by solving these questions.

### Course Contains:

- Numbers
- LCM and HCF
- Work and Wages
- Time Speed Distance
- Percentage
- Ratio, Proportion, and Partnership
- Average
- Trigonometry & Height and Distances
- Progressions
