DEPARTMENT: NUTRITION AND DIETETICS

ASSESSMENT OF LEARNING CAPABILITIES

The institution assesses the learning levels of the students and organizes special Programs for advanced learners and slow learners.

Student representation is diverse not just in terms of regional and linguistic aspects but also their level and pace of comprehensibility. Since it would be inappropriate to divide a class into groups based on students' level of comprehension, classroom observation, interaction, continuous and periodic assessment are used as a measuring system to assess learning levels of the students.

The Department of Nutrition and Dietetics draw up the schedule for organizing remedial classes for slow learners. This exercise is done in a discreet manner and slow learners are encouraged and prodded to recognize their shortcomings and register on their own without compulsion. Teachers are able to give one to one attention in remedial classes and focus on individual problems in a better manner when compared to a regular classroom in which the advanced learners' participation may inhibit the others from voicing their problems.

IDENTIFICATION OF ADVANCE AND SLOW LEARNERS:

SLOW LEARNERS

The department use monitoring and mentoring to keep track of slow learners' progress. Along with teachers some advanced learners are encouraged to mentor weak students and help them with explanation and notes. Revision classes and counseling sessions are held and additional teaching taken up if required.

Tutoring by peers, senior students, and mentors is offered. Corrected assignments and answer scripts are shared with each student and discussed to enable students recognize their problematic areas and improve. Faculty makes it a point to be patient and accessible to students personally, over phone, mail, and social apps.

ADVANCED LEARNERS

Advanced learners are encouraged to study Recommended Readings listed in each syllabus. They are encouraged to maintain a journal or diary. Gold Medals are awarded to the toppers in the College Convocation. Meritorious students are included as members of Committees. Net Coaching Centre, Civil Services Examination Coaching Academy and UGC Coaching for Minorities Entry into Services offer specialized programs to cater to the growth of advanced learners. Training and Placement Cell invites Companies and Industries to hold their placement drive at the college campus and students are encouraged to actively register for the interviews. Training and Placement Cell also provides training in interview skills and

communication skills. Proficiency in English classes, Functional Use of English, Personality Development programs are organized to enhance employability of the students.

Online resources are made available to strengthen the knowledge-base. Students are encouraged to participate in seminars, conferences and workshops to gain knowledge. The Faculty takes a keen interest while ordering books for the Central library and ascertains that the library collection of books caters to the needs of both slow and advanced learners. The library also ensures accessibility to computer facility and internet for the online material extends its timings and provides atmosphere for conducive learning to both slow and advanced learners. The faculty facilitates students to publish their articles in renowned peer reviewed journals. Competent research scholars and those receiving Junior Research Scholarship are allotted classes for teaching.

ASSESSMENT OF LEARNING CAPABILITIES:

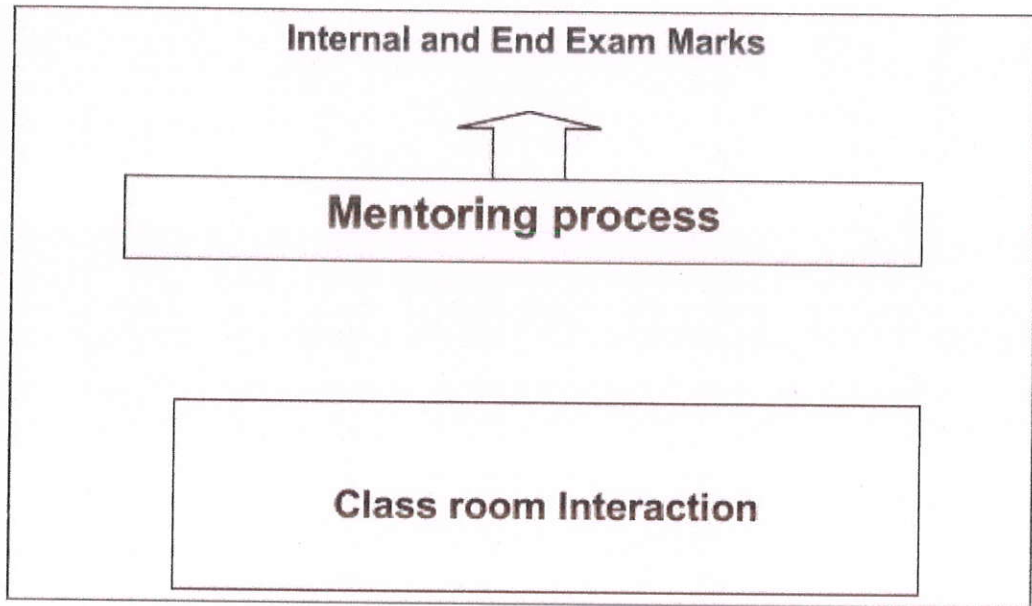

The bonding between staff members and students is highly appreciable in the institute. Distinction of the students over their performance is easily sought and hence categorization as advanced and slow learners is done per institution policy. Special activities are planned and execute for them

The pedagogue of the institution develops significant strategies and scientific implementations in education process to benefit both the advanced learners and slow learners without forgetting the average performance. The advanced learners to be excellent achievers and slow learners to be better performing and achieving students in the academic and personal life through a high- impact MENTORING SYSTEM.

Diversified students are assessed for their learning levels after their admission into different programs in the following manner.

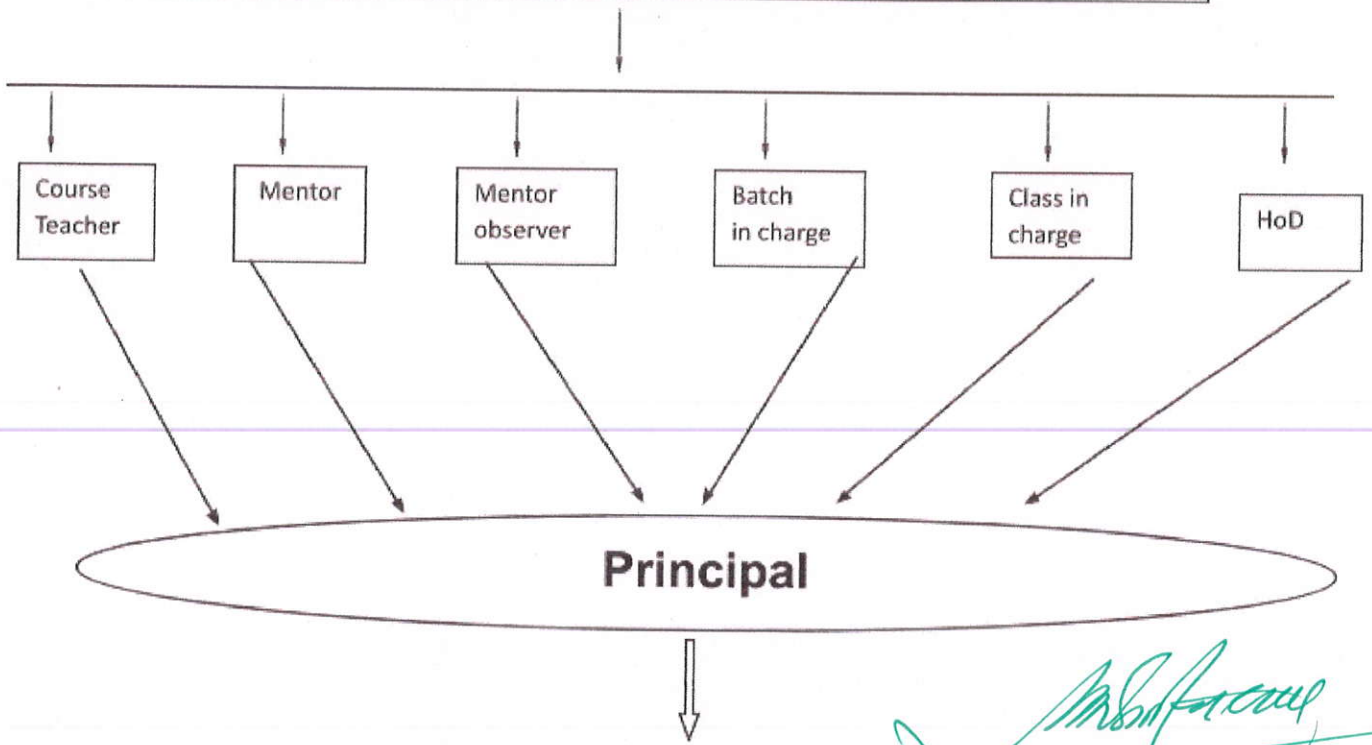

- ❖ Continuous monitoring of each and every student.
- ❖ The institute has adopted mentoring system which is used to counsel every student by respective mentors.
- ❖ Performance of the students in the class Test, Viva, Internal Exam and External Exams.

ASSESEMENT OF LEARNING CAPABILITIES

Special activities are planned and executed for special learners. Distinction between the students is made over their performance and is easily sought and hence is the categorization is done as advanced learners and slow learners. The bonding and understanding between the staff and students I highly appreciated.

The institution develops significant strategies and scientific implementations in education process to benefit the slow learners and the advanced learners without forgetting the average performance . The advanced learners to be excellent achievers and the slow learners to be better performing and achieving students in the academic and personal life through a high impact MENTORING SYSTEM.

Diversified students are assessed for their learning level after their admission into different programs in the following manner.

1. Continuous monitoring of each and every student.
2. The institute has adopted mentoring system which is used to counsel every student by respective mentors.
3. Performance of students in the class via test , internal exam and external exam.

INTERNAL EXAM AND EXTERNAL EXAMS.

IMPORTANT TOPICS TAUGHT FOR SLOW LEARNERS.

PAPER-I

1. Automorphism, Nilpotent groups, Solvable groups,
2. Sylow theorems, Finitely generated abelian groups.
3. Homomorphisms, Zorn's lemma.
4. Maximal and prime ideals, Nilpotent.
5. Euclidean domain.
6. Rings of fractions.

PAPER-II

1. Metric spaces
2. Limit and continuity, Monotone function.
3. Uniform convergence and differentiation.
4. Approximation of a continuous function by a sequence of polynomials.
5. Rectifiable curve.

PAPER-III

1. Existence and uniqueness theorem.
2. Charpit's theorem.
3. Picard's theorem.
4. Heat and wave equation and Laplace equation.
5. Sturm -Liouville's boundary value problem.
6. Legendre's polynomials
7. Bessel's functions.
8. Hermite polynomials.

PAPER-IV

1. Newton's law of motion.
2. Linear momentum.
3. Calculation of moments of inertia.
4. Euler's equation of motion of a rigid body.
5. Generalized forces.
