REPORT ON FREE HEALTH CAMP

ORGANIZED BY IQAC AND DEPARTMENT OF ZOOLOGY
IN COLLABORATION WITH KINGSTON HOSPITALS

As a service for the community and to educate students on the importance of regular health check-ups, IQAC and department of zoology organized a free health check-up camp with the help of Kingston Hospitals. It was organized on 00-00-0000 at 1:00pm to 6:00pm. Many doctors were present on site and provided facilities such as one to one consultation with the doctors, scanning and blood investigation.

PROGRAM REPORT

Program name	: Webinar on Genes and Cellular control.
Date of activity	: 24/08/2022
Venue	: Online.
Organized by	: Department of Zoology.
Number of participants	: 75

Objective of the program

The tightly regulated on/off switching of a gene's expression is known as gene regulation. It controls the effective use of cellular resources in single-celled organisms in response to their environment. Gene control determines the cell, its form and function, and ultimately the entire organism in multicellular creatures. When their environment changes, such as in reaction to signals from other cells, cells can alter the pattern of genes they express. The beginning of RNA transcription is typically the most significant point of control for most genes, even if all of the processes involved in the expression of a gene can theoretically be controlled.

Topics Covered:

- Human genetic makeup.
- Types of genes.
- Chromosomal abnormalities.
- Hereditary genetic diseases.
- Gene mutations.
- Gene therapy.

PROGRAM REPORT

Program name : Webinar on Extinction and Evolution.
Date of activity : 23/08/2022
Venue : Online.
Organized by : Department of Zoology.
Number of participants : 82

Objective of the program

Since species extinction is directly related to natural selection, it plays a significant role in the process of evolution. Environmental changes are frequently the cause of extinction. Some species have the adaptations necessary to live through environmental changes and procreate, whereas others do not. Occasionally, over many generations, a species will evolve the essential adaptations if the environment changes slowly enough. From the rise in antibiotic and pesticide resistance to the mostly human-caused increase in the extinction rate, humans have had a significant impact on evolution. Even the evolution of our own species is impacted by our influence on the process of evolution.

Topics Covered:

- Charles Darwin's theory.
- Necessity of extinction.
- Rise of new species.
- Change in habitats.
- Diversity.
- Environmental changes.
- Human disturbances.

The webinar was attended by a large no. of faculty members and students. There was a very enthusiastic participation by the students, which was evident by the number of questions asked. The webinar was conducted virtually using zoom app, link to which was mailed to the mail IDs of all the registered participants an hour before the webinar started. The webinar started at 1:00 PM and lasted till 3:00 PM on 23 August 2022.

This webinar taught the participants about different aspects of Evolution and extinction and why extinction is necessary for a species or a larger group of organisms to evolve.

Outcomes of the Program

There were many students who expressed their desire to present their poetry or that of other poets on stage. Anwar Uloom Education Institutions Director Professor Ahmed Baig praised the students who participated in the Mushaira and also advised them to develop interest in poetry.

Feedback on the mushaira of female students:

The success of this mushaira can be attributed to the fact that apart from all the guests of honor and special guests sitting on the stage, the students also appealed to hold a mushaira of female students every 6 months. Many other female students were present here who have expressed their desire to present the poetry of different poets on organizing the mushaira again.

PROGRAM REPORT

Program name : Fieldtrip to Apiculture Technology Centre.
Date of activity : 17/02/2022
Venue : Apiculture Technology Centre, Rajendranagar
Organized by : Department of Zoology
Number of participants : 47

Objective of the program

Honey bees are of significant environmental and economic importance as they carry out a major portion of the process of pollination of plants important for the agricultural sector and they produce significant amounts of honey and other by products which generate significant amounts of revenue. Learning the ins and outs of Apiculture is important to help save the bees, environment and our future generation.

Topics Covered:

- Types of bees.
- Bee morphology.
- Bee societal structure.
- Bee hive.
- Products extracted from a bee hive.
- Types of honey.
- Bees pollinating crops.
- Threats towards bee populations.
- How to conserve bees.

PROGRAM REPORT

Program name : Webinar on Animal Behaviour.
Date of activity : 27/08/2022
Venue : Online.
Organized by : Department of Zoology.
Number of participants : 67

Objective of the program

Animal behaviour is the study of how animals interact with one another, move through their environment, learn about it, and possibly develop a cognitive grasp of it. Since early human existence depended on understanding animal behaviour, early humans probably first watched animals for practical reasons. Success needed thorough familiarity with an animal's routines, whether it be for hunting, maintaining domestic animals, or avoiding an approaching predator. Animal behaviour research continues to be very important today.

Topics Covered:

- Understanding and Adapting to the Environment.
- Locating Food.
- Defending their territory.
- Social hierarchy.
- Mating rituals.
- Adjusting to human encroachment.

MEMORANDUM OF UNDERSTANDING

This memorandum of understanding is entered between **ANWARUL ULOOM COLLEGE (AUTONOMOUS)** on this November 01, 2021, by and between **Department of Nutrition & Dietetics** having its campus at **New Mallepally, Hyderabad** (herein after referred as **THE COLLEGE**) which expression shall unless repugnant to the context or meaning thereof be deemed to include its successors and assigns of the **FIRST PART**

AND

GLOBAL MEDICAL EDUCATION AND RESEARCH FOUNDATION (GMERF), having a principal place of business at **GLOBAL TOWERS, 6-1-82/83, Lakdikapul, Hyderabad 500 004, India** (here in after referred to as "**GMERF**") which expression shall unless repugnant to the context or meaning thereof be deemed to include its successors and assigns of the **SECOND PART**

For facilitating

COLLABORATIVE ACADEMIC, TRAINING AND RESEARCH PROGRAMS IN THE AREAS OF NUTRITION & DIETETICS.

THE ANWARUL ULOOM COLLEGE (AUTONOMOUS), is established and administered by the **Anwarul Uloom Educational Association (name of management)** as an autonomous college under **Osmania University Hyderabad**.

THE COLLEGE had been benefiting from the expertise and facilities available at various **National laboratories, academic institutes in and around Hyderabad** through extension lectures, guest faculty appointments and training of students for project work.

GMERF is a not-for-profit organization having its own **R & D and training centre** which is recognized by **Department of Scientific & Industrial Research (DSIR)** pursuing research and training in the areas of modern medical biotechnology particularly applied in the areas of diagnostics and therapeutics.

In view of synergy in the objectives of the two organizations, it is desirable that **THE COLLEGE and GMERF** enter into a **Memorandum of Understanding (MoU)** for making available the expertise and facilities existing in both the organizations for promoting training, academics and research in the fields of common interest within the framework of charter of both the institutions for an initial period of **3 years** beginning from the Academic year 2021.

In accordance with a mutual desire to promote co-operation, **THE COLLEGE and GMERF** enter into this formal statement of collaboration, for the purpose of collaboration in educational, research and training endeavors.

THE COLLEGE and GMERF have found it mutually beneficial to seriously explore co-operative activities for the following purpose.

1. Exchange of faculty and staff for teaching and / or research assignments.
2. Training of students in research through internships and research projects.
3. Organization of symposia, workshops and conferences.
4. Collaborative research programs.
5. Exchange of scientific and technical information & expertise.
6. Making the infrastructure available for collaborative research programs.
7. To design, develop and jointly offer short-term (6 months) certificate programs, PG diploma programs and elective courses in medical biotechnology areas for undergraduate and post graduate programs in various disciplines of biotechnology at GMERF.

The following terms of MOU:

1. THE COLLEGE will recognize GMERF as an institution for conducting research relating to the course requirements of the PG students.
2. To explore the possibility and establish jointly a finishing school (industrial training school) in medical biotechnology at GMERF for undergraduate and post graduate students of biotechnology.
3. The research scholars who would work at GMERF for Project/PhD thesis shall be governed by relevant rules and regulations of GMERF.
4. The course work requirement for the Ph.D degree program should be completed at Osmania/JNTU-H University. The GMERF scientists may be invited to deliver some lectures for PG programs.
5. The GMERF will provide the laboratory facilities for the Ph. D scholars admitted by THE COLLEGE under the MoU to carry mutually agreed upon research program. The number of such students will be based on GMERF's research agenda and availability of GMERF scientist's time to guide research scholars.
6. The approved GMERF scientist will provide the research supervision. Any publication/s resulting from the thesis research must be processed jointly by the scientists at GMERF and THE COLLEGE.
7. Whenever possible, GMERF and THE COLLEGE would encourage their scientists to deliver special lectures at each other's institutions.
8. Both the institutions will exchange scientific and technological information of value for their respective research and training programs.

PROGRAM REPORT

Program Name : cryptography technology.
Date : 20-11 - 2021.
Target audience : All Computer Science and Computer Science & Engineering
Venue : Computer Dept.
Organized By : Dept. of computer science & Engineering
Number of Participants: 40

OBJECTIVE

Cryptography is the practice and the study of concealing the information and it furnishes confidentiality, integrity, and exactness. Cryptography is used to defend the data and to defend the data and to define it in the simple and easy words, it is an art of writing and solving the codes. Cryptography is a science that uses the mathematics to encrypt and decrypt the information; it empowers to save the sensitive data. This feature of cryptography provides security and makes only the aimed recipient to read the data.

The main purpose of cryptography is to defend the transmitted information and it plays an important role

- Authentication
- Data confidentiality
- Data integrity
- Non-repudiation

SESSION : 20-11 - 2021.

Brief profile:

She is currently working as Asst. Professor in the Department of Computer Science and Engineering, Visakha Institute of Engineering and Technology.

Outcome:

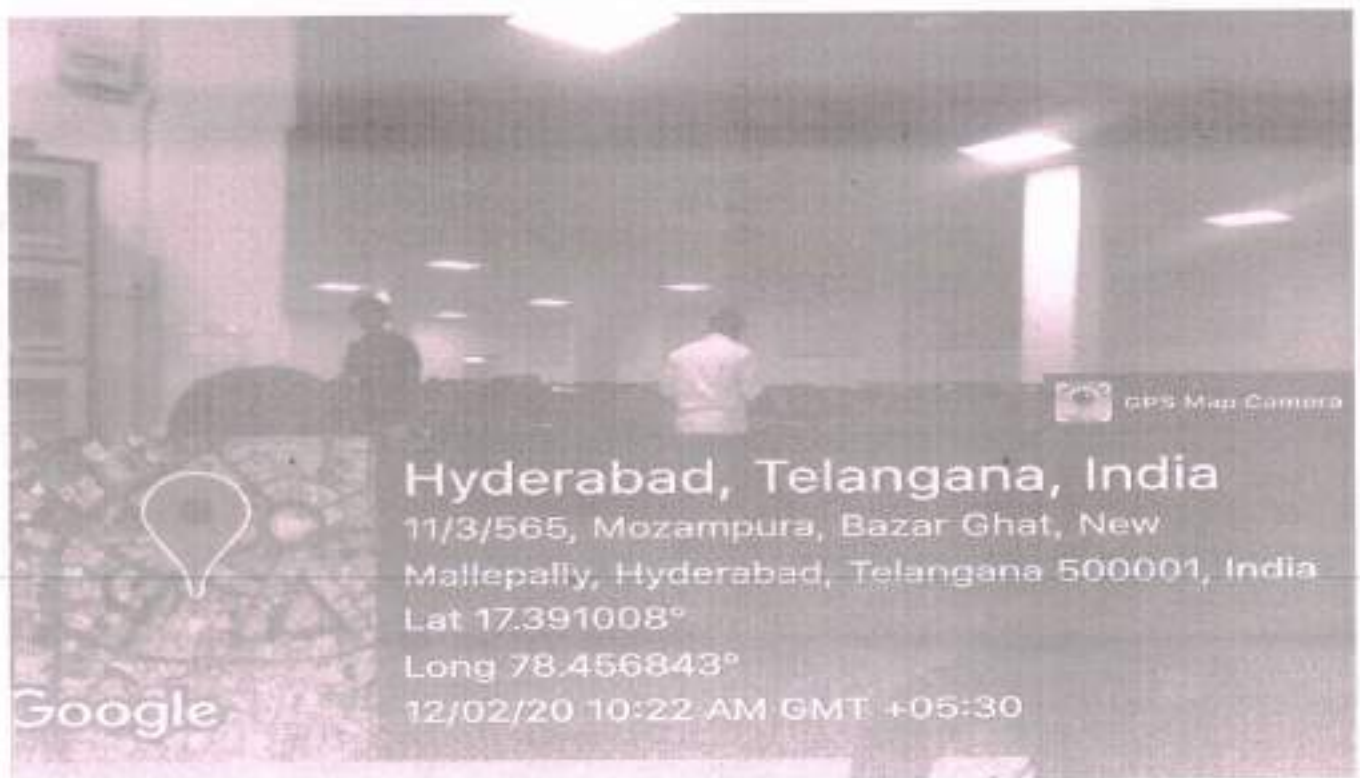

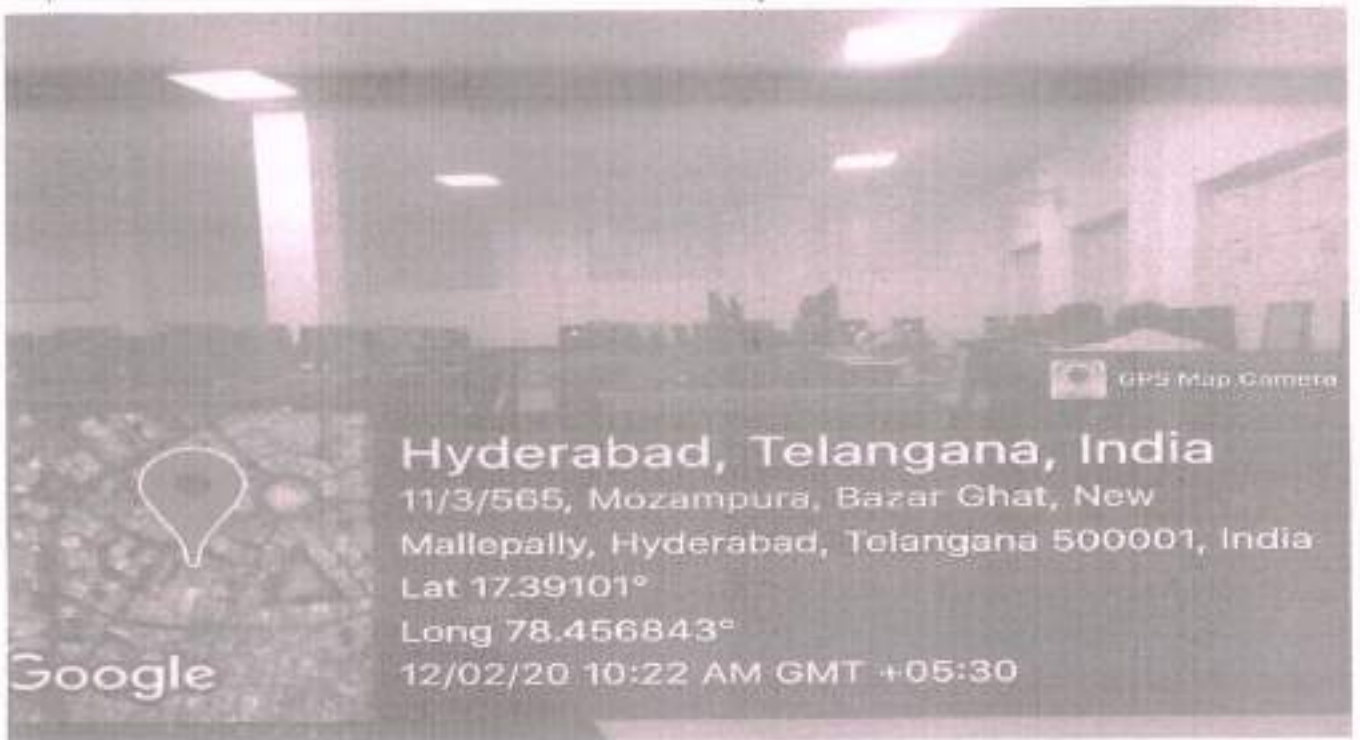

The participants are able to understand

- We use different types of algorithms to establish security services in different service mechanisms.
- We use either private key cryptography or public key cryptography according to requirement.
- If we want to send message quickly we use private key algorithm and if we want to send messages secretly we use public key algorithm.

PROGRAM REPORT

PROGRAM NAME: STUDENT EXCHANGE PROGRAM

DATE OF ACTIVITY: Academic year 2021-2022

ORGANIZED BY :- DEPARTMENT OF NUTRITION AND DIETETICS.

NUMBER OF PARTICIPANTS:- 125

OBJECTIVES OF THE PROGRAM:

The students from Mumtaz college had come to attend the classes and the practical labs in the Anwarul Uloom College during the academic session 2021-2022.

The collaboration has given the faculty to address the students of other institute and become acquainted with them. The job was executed professionally to avoid any hindrance in the education of the students and to make them understand the concepts more efficiently and be able to apply the academically gained knowledge practically.

We appreciate the efforts of both the institutes to work with harmony for the benefits of the students of both institutes.

OBJECTIVES:

The goal of the students exchange was to increase the exposure of the students and to introduce them into new learning environment.

REPORT

Program name : Webinar on Diseases, immunity, and parasites.
Date of activity : 22/03/2021
Venue : Online.
Organized by : Dept. of Zoology.
Number of participants : 73.

Objective of the program

The term "parasites" can be used in two different ways: it can be used more broadly to refer to all pathogens, including viruses, or it can be used more narrowly to describe eukaryote animal pathogens, such as single-celled protozoans, multicellular worms, and arthropods. It is vital to provide a brief overview of the immune system in order to comprehend the connections between parasites and host immunity.

Topics Covered:

- Types of parasites.
- Diseases caused by parasites.
- Immune system's relationship with parasites.
- Symbiotic parasites.
- Parasite antigens.
- Parasite control.
- Preventing parasitic infections.

Report on Webinar Conducted by History Department

Title: One Day National Webinar on " Greater Mughals "

Preamble: One Day National Webinar on " Greater Mughals " organized by the History Department, Indira Priya Darshini Government Degree College for Women in collaboration with Department of History, Anwarul Uloom College on 11th January 2021 at 2-00 PM in order to impart knowledge to the students regarding Greater Mughals History.

Resource Person: Mr. K. Felix, Professor & Head of the Department, History, Anwarul Uloom College, Hyderabad was the speaker of the Topic.

Description about the Program: The Webinar started at 2 PM as per the Programmed schedule. The welcome speech was given by Mrs. Shanthaveni, Head of the Department, History, Indira Priya Darshini Government Degree College for Women to welcome the dignitaries and the participants. A brief introduction of the speaker was given then the speaker started his talk. The beginning of the Mughal Empire in India, its rise, reaching to the Zenith and the fall of Mughal Empire was very well explained in detail by Mr. K. Felix. Vote of Thanks was given by Mrs. Asma Parveen, Convener, Faculty of Department of History, Anwarul Uloom College, New Malapally, Hyderabad. Thanked the Management, Director, Principal and all the participants from our College and other Colleges also.

At the end there was a question and answer session and the speaker answered many queries raised by the participants.

Outcomes of the Webinar: Participants learnt that

- The Mughal Empire was the greatest of Muslim Empires in the early modern period
- The study was an extraordinary Indo – Islamic synthesis. It encourages students to consider fundamental questions of identity and diversity
- No other dynasty in the Islamic world has left behind more comprehensive historical documentation than the Mughals
- A rich array of written sources, Art, Buildings and Artifacts provides a plethora of learning resources

Feedback: The feedback report of the participants suggests that such Seminars should be conducted frequently. It was a great success. 90 participants participated. The Department of History thanked all the faculty who supported and helped to make this Webinar a great success. It thanked the Management of Anwarul Uloom College, New Mallepally, Hyderabad. Participants were given E – Certificates.

Future perspectives: The Department of History is looking forward to organize more Seminars and Webinars which will be more informative and beneficial to the students

Report: Submitted by Mrs. Asma Parveen, Faculty of History, Anwarul Uloom College, New Mallepally, Hyderabad.

DEPARTMENT OF COMPUTER SCIENCE

Two Days Online Workshop

On

"Skill Enrichment in DevOps"

INTRODUCTION

DevOps is a set of practices that combines software development and IT operations. It aims to shorten the systems development life cycle and provide continuous delivery with high software quality. DevOps is complementary with Agile software development; several DevOps aspects came from the Agile way of working.

DevOps is the combination of cultural philosophies, practices, and tools that increases an organization's ability to deliver applications and services at high velocity: evolving and improving products at a faster pace than organizations using traditional software development and infrastructure management processes. This speed enables organizations to better serve their customers and compete more effectively in the market.

OBJECTIVE

1. To create awareness in the students about Amazon Web Services Tools.
2. To motivate students to learn online during the pandemic.
3. To promote skill enrichment among the students about advance technologies in I.T.
4. To help the students to select a better career by learning various technologies.

No. of Online participants: 8 Teachers and 43Students

Learning Outcomes: Smart use of time: Learn Online during Corona Pandemic

- Understand the need of Online Learning
- Students will develop interest in Online learning platforms.
- Students will demonstrate proficiency with statistical analysis of data.
- Students will assess Online courses and enroll themselves
- Students will develop new skills during the pandemic.
- It improves online employability skills.

Software and the Internet have transformed the world and its industries, from shopping to entertainment to banking. Software no longer merely supports a business; rather it becomes an integral component of every part of a business. Companies interact with their customers through software delivered as online services or applications and on all sorts of devices. They also use software to increase operational efficiencies by transforming every part of the value chain, such as logistics, communications, and operations. In a similar way that physical goods companies transformed how they design, build, and deliver products using industrial automation throughout the 20th century, companies in today's world must transform how they build and deliver software.

PROGRAM REPORT

Program Name: Python Libraries For Data Science.

Date : 25-10-2020.

Online Zoom Link : Topic: Mobile Computing & Its Application. Zoom Meeting
Time: July 15, 2020 09:00 AM Mumbai, Kolkata, New Delhi Zoom Link
Meeting ID: 996 5061 6813
Passcode: 2ZkJYx

Target audience: All Computer Science and Computer Science & Engineering

Organized By : Dept. of computer science & Engineering

Number of Participants: 40

OBJECTIVE

- Master the fundamentals of writing Python Libraries For Data Science.
- Learn Python Libraries For Data Science scripting elements such as variables and flow control structures.
- Discover how to work with lists and sequence data.
- Write Python Libraries For Data Science functions to facilitate code reuse.
- Work with the Python standard library
- Explore Python's object-oriented features
- Search text using regular expressions
- The primary purpose of machine learning is to discover patterns in the user data and then make predictions based on these and intricate patterns for answering business questions and solving business problems.
- Machine learning helps in analyzing the data as well as identifying trends.

SESSION : 25-10-2020.

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (hereinafter called as the 'MoU') is entered into on this Twenty Two- July- Two Thousand and Twenty (22/6/2020), by and between (22/6/2021).

ANWARUL ULOOM COLLEGE (AUTONOMOUS), 11-3-918, New Mallepally, Hyderabad, Telangana-500001. **THE FIRST PARTY** represented here in by its Mr. Md. Mazheruddin, Principal (here in after referred as 'First Party', the institution which expression, unless excluded by or repugnant to the subjector context shall include its successors — in-office, administrators and assigns).

AND

THE HEALTH CARE, THE SECOND PARTY, and represented herein by its CH. Suresh, Director (hereinafter referred to as "Second Party", company which expression, unless excluded by or repugnant to the subject or context shall include its successors — in-office, administrators and assigns).

(First Party and Second Party are hereinafter jointly referred to as 'Parties' and individually as 'Party') as

WHEREAS:

First Party, **ANWARUL ULOOM COLLEGE (AUTONOMOUS)** is located in 11-3-918, New Mallepally , Hyderabad, Telangana-500001.

- 1.1 The Parties intent to cooperate and focus their efforts on cooperation within area of Training, Placement, Education, Consultancy, Research and other Technical matters.
- 1.2 Both Parties, being legal entities in themselves desire to sign this MoU for advancing their mutual interests.

NOW THEREFORE, IN CONSIDERATION OF THE MUTUAL PROMISES SET FORTH IN THIS MoU, THE PARTIES HERE TO AGREE AS FOLLOWS:

2. CO-OPERATION

- 2.1 Both Parties are united by common interests and objectives, and they shall establish channels of communication and co-operation that will promote and advance their respective operations within the Institution and its related wings.
- 2.2 The Parties shall keep each other informed of potential opportunities and shall share all information that may be relevant to secure additional opportunities for one another.
- 2.3 The general terms of co-operation shall be governed by this MoU. The Parties shall cooperate with each other and shall, as promptly as is reasonably practical, enter into all relevant agreements, deeds and documents as may be required to give effect to the actions contemplated in terms of this MoU.

3. SCOPE OF THE MoU

- 3.1 The talented students from the institutions could play a key role in technological upgradation, innovation and competitiveness of an industry. Both Parties believe that close cooperation between the two would be of major benefit to the student community to enhance their skills and knowledge.
- 3.2 **Curriculum Design:** Second Party may participate in this process as and when the First Party extends invitation for such activity. The cooperation may be sought in teaching / training methodology and suitably customize the curriculum so that the students fit into the industrial scenario meaningfully.
- 3.3 **Industrial Training & Visits:** Industry and Institution interaction will give an insight in to the latest developments / requirements of the industries; the Second Party may permit the Faculty and Students of the First Party to visit its group companies and also involve in Industrial Training Programs for the First Party. The industrial training and exposure provided to students and faculty through this association will build confidence and prepare the students to have a smooth transition from academic to working career. The Second Party will provide its Labs / Workshops / Industrial Sites for the hands-on training of the learners enrolled with First Party.

- 3.4 **Research and Development:** Both Parties have agreed to carry out the joint research activities in the fields of their expertise. The outcome of the R&D would be subject to the INTELLECTUAL PROPERTY section of this MoU.
- 3.5 **Skill Development Programs:** Second Party to train the students of First Party on the emerging technologies in order to bridge the skill gap and make them industry ready and vice-versa.
- 3.6 **Expert Lectures:** Second Party to extend the necessary support to deliver expert lectures to the students of the First Party on the technology trends and in-house requirements and vice-versa.
- 3.7 **Faculty Development Programs:** Second Party to train the Faculties of First Party for imparting training as per the requirement in concerned sector/specialization, if available and vice-versa.
- 3.8 **Training and Placement of Students:** Second Party will actively engage to help the delivery of the training and placement of students of the First Party into internships/jobs; and will facilitate placements for the students.
- 3.9 **Consultancies, R&D and other Academic Matters:** The Parties will extend cooperation to each other in such a manner that it is mutually beneficial but does not create a conflict of interest on either's part. If such situation arises, the terms mentioned in the ARBITRATION section of this MoU would be resorted to.

4. ARBITRATION

- 4.1 Any dispute arising with regard to any aspect of this MoU shall be settled through mutual consultations and agreements by both Parties.
- 4.2 In the event of non-resolution of disputes through mutual consultation, the Parties hereby submit to the exclusive jurisdiction of the Telangana Courts of Law. The arbitration shall be conducted in accordance with Arbitration and Conciliation Act of 1996 and the venue of the arbitration shall be in Kota jurisdiction of dispute.

5. DURATION

- 5.1 This Memorandum of Understanding shall become effective upon signing by both Parties and shall remain in effect for a duration of ONE (1) year. It may be extended for another duration with mutual agreement.
- 5.2 The MoU may be terminated by either Party by giving three months' notice and settling all outstanding dues, if any, within that period.

(First Party and Second Party are hereinafter jointly referred to as 'Parties' and individually as 'Party') as

WHEREAS:

First Party, **ANWARUL ULOOM COLLEGE (AUTONOMOUS)** is located in 11-3-918, New Mallepally, Hyderabad, Telangana-500001.

- 1.1 The Parties intent to cooperate and focus their efforts on cooperation within area of Training, Placement, Education, Consultancy, Research and other Technical matters.
- 1.2 Both Parties, being legal entities in themselves desire to sign this MoU for advancing their mutual interests.

NOW THEREFORE, IN CONSIDERATION OF THE MUTUAL PROMISES SET FORTH IN THIS MoU, THE PARTIES HERE TO AGREE AS FOLLOWS:

2. CO-OPERATION

- 2.1 Both Parties are united by common interests and objectives, and they shall establish channels of communication and co-operation that will promote and advance their respective operations within the Institution and its related wings.
- 2.2 The Parties shall keep each other informed of potential opportunities and shall share all information that may be relevant to secure additional opportunities for one another.
- 2.3 The general terms of co-operation shall be governed by this MoU. The Parties shall cooperate with each other and shall, as promptly as is reasonably practical, enter into all relevant agreements, deeds and documents as may be required to give effect to the actions contemplated in terms of this MoU.

3. SCOPE OF THE MoU

- 3.1 The talented students from the institutions could play a key role in technological upgradation, innovation and competitiveness of an industry. Both Parties believe that close cooperation between the two would be of major benefit to the student community to enhance their skills and knowledge.
- 3.2 **Curriculum Design:** Second Party may participate in this process as and when the First Party extends invitation for such activity. The cooperation may be sought in teaching / training methodology and suitably customize the curriculum so that the students fit into the industrial scenario meaningfully.
- 3.3 **Industrial Training & Visits:** Industry and Institution interaction will give an insight in to the latest developments / requirements of the industries; the Second Party may permit the Faculty and Students of the First Party to visit its group companies and also involve in Industrial Training Programs for the First Party. The industrial training and exposure provided to students and faculty through this association will build confidence and prepare the students to have a smooth transition from academic to working career. The Second Party will provide its Labs / Workshops / Industrial Sites for the hands-on training of the learners enrolled with First Party.

- 3.4 **Research and Development:** Both Parties have agreed to carry out the joint research activities in the fields of their expertise. The outcome of the R&D would be subject to the INTELLECTUAL PROPERTY section of this MoU.
- 3.5 **Skill Development Programs:** Second Party to train the students of First Party on the emerging technologies in order to bridge the skill gap and make them industry ready and vice-versa.
- 3.6 **Expert Lectures:** Second Party to extend the necessary support to deliver expert lectures to the students of the First Party on the technology trends and in-house requirements and vice-versa.
- 3.7 **Faculty Development Programs:** Second Party to train the Faculties of First Party for imparting training as per the requirement in concerned sector/specialization, if available and vice-versa.
- 3.8 **Training and Placement of Students:** Second Party will actively engage to help the delivery of the training and placement of students of the First Party into internships/jobs; and will facilitate placements for the students.
- 3.9 **Consultancies, R&D and other Academic Matters:** The Parties will extend cooperation to each other in such a manner that it is mutually beneficial but does not create a conflict of interest on either's part. If such situation arises, the terms mentioned in the ARBITRATION section of this MoU would be resorted to.

4. ARBITRATION

- 4.1 Any dispute arising with regard to any aspect of this MoU shall be settled through mutual consultations and agreements by both Parties.
- 4.2 In the event of non-resolution of disputes through mutual consultation, the Parties hereby submit to the exclusive jurisdiction of the Telangana Courts of Law. The arbitration shall be conducted in accordance with Arbitration and Conciliation Act of 1996 and the venue of the arbitration shall be in Kota jurisdiction of dispute.

REPORT

Program name : Webinar on Seasonal behaviours and migrations in animals.
Date of activity : 12/03/2020
Venue : Online.
Organized by : Dept. Of Zoology.
Number of participants : 90.

Objective of the program

Migration is a seasonal process that requires a repeat trip. This distinguishes it from emigration, which occurs when animals move to a new location in search of a long-term home. Fish, crustacean, amphibian, reptile, insect, and mammal species are only a few examples of the numerous animal species that migrate. These animals may travel via land, sea, or air to get there, frequently covering great distances in great numbers.

Topics Covered:

- What makes animals migrate?
- Migration and emigration.
- Advantages and disadvantages.
- Migration of Great Indian Bustard.
- Migration of Monarch butterflies.
- Hunting pressure.
- Climate change affecting their resources.

REPORT on RECRUITMENT TRAINING

Module: Interview Skills Development

Industry Expert: Mrs. Salma Nausheed (M.Sc, B.Ed, M.A, International Certified Career Coach(1.7))

Report Dated: 27, October '2021 Wednesday

Summary:

Interview skills training workshop on important personal traits to be identified, groomed further and practiced was held for students, for the Undergrad and Post-Grad on July 24, 2019 at R.J.P Hall, Anwar Ul Uloom, Degree and P.G. College, Mallepally Hyd.

Personal Traits Development Training was imparted on skills like

- ✓ *Effective ways of Communication(English and Urdu)*
- ✓ *Language Fluency(Tips and Techniques)*
- ✓ *Confidence Building and Self Grooming*
- ✓ *Impressive Body Language (Non-Verbal Communication)*

Key Speaker was Mrs. Salma Nausheed-Founder and CEO of Alif Skills Academy, Hyd-An IT and Communication Skills Training Enterprise.

Mrs. Nausheed spoke about different work related opportunities in India and Abroad emphasising on the challenges faced by interviewees in exhibiting/showcasing the key technical and soft skills that are dearly needed by the industry recruiters and employers of the small, medium and multinational companies.

A Small workshop was conducted to train, motivate and mentor students in preparing for the Before the Interview(Counts for 80%), During the Interview (Counts for 15%) and After the Interview (5%) actions and execution

Interactive session covered Most Frequently Asked Questions and tips to respond in the best possible convincing ways;

- ✓ *Tell me something about yourself*
- ✓ *Why should Company hire you?*
- ✓ *Where do you see yourself in next two, five and ten years from now?*
- ✓ *Why do you wish to work for our company?*

Conclusion

Both sessions Morning (Boys) and Afternoon (Girls) were interactive and seamlessly productive. With well planned structured process of brainstorming and information sharing and mock interview hands on experience, participants in the sessions reached an agreement on recommendations and suggestions shared as 'how to improve their Basic English and other Communication Skills by working on'em for just 15mins/day' and had a clarity on related barriers and solutions.

Recommendations:

Humble recommendation is please plan 3 day workshops for the Final year students of Graduation and Post Graduation to build their confidence, help them face more mock Interviews and make them industry ready Inshea'Allah.

On

"Online Learning Platforms to Develop New Skills during the COVID-19 Pandemic"

INTRODUCTION

A MOOC is a Massive Open Online Course facilitated wholly online and designed to support an unlimited number of enrolments (Physiopedia, n.d). It allows anyone, anywhere, to participate via video lectures, computer-graded tests, and discussion forums (Matthew B. Hoy., 2014). It is open to everyone without entry qualifications, and offer a full/complete course experience online for free (Brouns et al., 2014).

The term MOOCs was originally coined by the Canadian academician named Dave Cormier of the University of

Prince Edward Island in 2008 for a large online class taught by George Seimens of Athabasca University and Stephen Downes of Manitoba University, Canada. It is known by different variants in the cyberspace – online courses, open courseware, video lectures, online education, online studies, open educational resources etc (Umesh Arya, 2017). The most famous of MOOC providers are coursera.org, edx.org, canvas.net, udacity.com, open2study.com, online.stanford.edu/courses, openculture.com, alison.com, iversity.com, khanacademy.com, etc.

MOOC stands for Massive Open Online

Brief profile:

He is currently working as Professor in the Department of Computer Science and Engineering, Dr.K.V.Subba Reddy Institute of Technology.

Outcome:

The participants are able to understand modern technologies and large Data tools, companies need skilled data professionals. These professionals will include data scientists, data analysts, and data engineers to work with the tools and make sense of giant data sets. This is often because data handling tools have evolved rapidly, but in most cases, the professionals haven't. Actionable steps got to be taken to bridge this gap.

Anwarul Uloom College New Malleshpally, Hyderabad, is one of the largest autonomous institutions affiliated to Osmania University. The College had been accredited by NAAC with 'A' grade. The College is committed to create awareness among young minds towards global issues and is an excellent platform for the future of young aspiring minds. The College is one of the oldest and most prestigious research oriented institution of higher education not only in Telangana State but also in India.

ABOUT THE DEPT. OF BOTANY:
The department of Botany had its inception in the year 1964 and became full fledged as Under Graduate Centre in 1981. The Staff of the department have innovative teaching and research abilities. The department has been updating the curriculum and have introduced the Choice Based Credit System (CBCS). The legendary department has national recognition because of the dynamic contribution of our talented faculty members.

ABOUT IFB:
The Institute of Forest Biodiversity, Hyderabad was established as a Forest Research Centre during the year 1997. It was upgraded to the level of an institute on 7th Dec 2012. The Institute has excellent laboratory facilities and well qualified and experienced scientific personnel. The Institute is also making special efforts to reach various Stakeholders viz., State Forest Departments, Farmers, Universities involved in forestry research etc. The Institute has widened its research activities in the field of biomass estimation and carbon sequestration in addition to its conventional research activities.

ABOUT THE CONFERENCE:
The objective of the Conference is to create awareness about the importance of plant sciences. The focus of the conference will be on applied aspect of plant sciences and major fields of allied subject. The main goal is the exchange of information, new innovations and discoveries in research to meet the practical challenges in the subject. The major role played by plants in environmental sustainability to mitigate climate change, for the conservation of land, soil and water resources and for the welfare of the society.

Date: 30 & 31 Oct 2018

Venue: RJP Hall

Organized by: Department of Botany

No of participants: 250

The Department organized a 2 Day National Conference on "New Horizons in Applied Plant Sciences Research and its impact on Human welfare" in association with the Institute of Forest Biodiversity Dulapally. Scientists from CRIDA, IIRR, ICAR, NIPER, IFB, and PJTSAU presented their work during the events. Along with Dr. G.Ravi Shanker Reddy, Scientist G IFB, who also contributed money for the Conference, our Management, the chief guest P. RAGHUVIEER, Chief Conservator of Forest and IFS, graced the occasion with his honourable presence. The dignitaries of the event issued full-length papers, ISBN Books and conference proceedings, both of which focused on the conference's theme. October 30 and 31, 2018

OBJECTIVES

Students learn how plants are used to produce food, alter environments, restore damaged landscapes, improve human health and well-being, improve community environments, and provide recreational and practical benefits to the public. Plant science is essential to maintaining the world around us.

PROGRAM REPORT

Program Name : Software Testing.
Date : 1-12-2018.
Target audience : All Computer Science, Computer Science & Engineering and B.Com (Computers) students.
Venue : Computer Lab
Organized By : Dept. of computer science & Engineering
Number of Participants: 50

OBJECTIVE

- Finding defects that may get left by the developer while developing the software application.
- To prevent defects.
- To ensure that the end result meets the business and user requirements.
- To ensure that it satisfies the FRS that is Functional Requirement Specification.
- To build the confidence of the customers by providing them with a quality software application.

SESSION : 1-12-2018.

Outcome of Seminar:

The participant understand the basic concepts of Software Testing, this seminar program brought a positive transformation in the faculty member's. Testing is one element of software quality assurance. Verification and Validation can occur in any phase. Testing of Code involves. Black box, grey box, and white box tests.

All require: input, expected output (via spec), actual output. White box additionally looks for code coverage. Testing of systems involves. unit tests, integration tests, system tests and acceptance tests. Testing should be automated and various tools exists to integrate testing into the version control and build management processes of a development organization

Memorandum of understanding for academic linkage
Between
ANWARUL ULOOM COLLEGE, HYDERABAD
And
GAYATRI COLLEGE OF SCIENCE & MANAGEMENT, MUNASABPETA, SRIKAKULAM

The main objective of this memorandum of understanding (MOU) is to encourage collaborative activities between the two institutions to enhance quality of education and facilitate teaching learning process. The purpose of this endeavor is to provide opportunities for the development of academic environment of both the colleges by promoting cooperative and mutually beneficial pursuits. This MOU is presented by Dr. Pulakhandam Srinivasa Rao (Principal, Gayatri College of Science & Management, Munasabpetta, Srikakulam) and Mr. Md Mazher Uddin (Principal, Anwarul Uloom College, Hyderabad) and for cultivating academic growth sustenance, as envisaged by UGC and NAAC.

Program and Activities to be encouraged

1. Quality initiatives
2. Conducting lectures and organizing seminars and conferences
3. Online sharing of innovative ideas in teaching learning and e-Governance
4. ICT (Information and Communication Technology) use for innovative pedagogy
5. Exchange of academic information, study materials, scholarly articles and publications
6. Faculty Exchange programs
7. Conducting collaborative research projects
8. Value based cultural and social initiatives

Term of MOU

The MOU is valid for one year from the day the signing by the authorized signatories of each party.

Other conditions

- This linkage will respect intellectual property rights and any other intellectual matters developed by the collaborative efforts of the two colleges. Both the colleges shall respect and retain confidentiality in each of the collaborative efforts and all collaborative academic exercises shall be guided, the directed and impelled by the

- Greater academic interest of the both the colleges and not any other commercial interests.
- The institutions agree that there is no intention to share any confidential or proprietary information in any collaboration under this MOU.
- No legal relationship between the two colleges is implied through this linkage, and any of the two colleges can choose to terminate the linkage with a prior notice of six months.
- This academic linkage shall upload the ethos of holistic and integrated academic excellence and growth followed by all higher education institutions of the country, and shall not in any way impede or effect the individuality and distinctiveness of each of the in any way.

REPORT

Program name : Webinar on Application of mathematics in living organisms.
Date of activity : 08/03/2019
Venue : Online.
Organized by : Dept. Of Zoology.
Number of participants : 67.

Objective of the program

Biology also uses mathematics to collect simple, unprocessed data that is helpful in observing changes over time. By comparing or correlating biological data, biostatistics uses statistical studies to reach conclusions about biological processes. A growing number of high-throughput genomics and proteomics initiatives are using mathematical and computational models to aid in the interpretation of biomedical data. Hypotheses and suggested experiments are produced by the use of sophisticated computer models that simulate complex biological processes.

Topics Covered:

- Biomathematics.
- Biostatistics.
- Gathering and processing data.
- Creating an efficient database.
- Simulating long term biological processes.
- Gene mapping.

OUTCOME OF THE PROGRAM

The participants of the webinar will gain the basic knowledge of biomathematics and different fields of biomathematics. This webinar proved to be helpful as it helped biology students realise the importance of mathematics in biology and how they will be incorporating it in their studies in the future.

Total of 67 participants took part in the webinar on 8th of march 2019.

MEMORANDUM OF UNDERSTANDING

The memorandum of understanding is entered into this day of June 14, 2018, between Dr.K.V.Subbarayudu College of Engineering for Women, Dupadu, Kurnool-518218, A.P., herein after called the first party,

Anwarul Uloom College (Autonomous), New Mallepally, Hyderabad, herein after called second party.

PURPOSE: With the object of promoting co-operation in academic matters, KVSU and AUC individually and collectively enter into the following Memorandum of Understanding (MOU).

The MOU has been signed for a period of 1 year and from June 14-2018 to June 13- 2019.

Both the institutions agree to co-operate in organizing joint conferences and faculty exchanges would be mutually beneficial. The area of co-operation include, subject to mutual consent, any desirable activity that would further the goals of each institution. Such interaction may include co-operation in a variety of joint academic activities such as:

1. Faculty exchange programs.
2. Joint conferences and workshops.
3. Research Activities.

PROGRAM REPORT

Program Name: block chain technology.
Date : 14-06-2018.
Target audience: All Computer Science and Computer Science & Engineering
Venue : Computer Lab
Organized By : Dept. of computer science & Engineering
Number of Participants: 50 students

OBJECTIVE

Blockchain technology is to keep the visibility strictly between the chosen participants.

Besides ensuring stability and control over the transactions.

It provides convenience in the mining process with the help of proof of work along with control of the costs associated with it.

But blockchain uses the three principles of cryptography, decentralization, and consensus to create a highly secure underlying software system that is nearly impossible to tamper with. There is no single point of failure, and a single user cannot change the transaction records.

Brief profile:

He is currently working as Professor in the Department of Computer Science and Engineering, He have 10 years of experience in Dr.K.V.Subba Reddy Institute of Technology.

Outcome of Seminar:

The participants are able to understand

The application of the Blockchain concept and technology has grown beyond its use for Bitcoin generation and transactions. The properties of its security, privacy, traceability, inherent data provenance and time-stamping has seen its adoption beyond its initial application areas. The Blockchain itself and its variants are now used to secure any type of transactions, whether it be human-to-human communications or machine-to-machine. Its adoption appears to be secure especially with the global emergence of the Internet-of-Things. Its decentralized application across the already established global Internet is also very appealing in terms of ensuring data redundancy and hence survivability. The Blockchain has been especially identified to be suitable in developing nations where ensuring trust is of a major concern. Thus the invention of the Blockchain can be seen to be a vital and much needed additional component of the Internet that was lacking in security and trust before. BC technology still has not reached its maturity with a prediction of five years as novel applications continue to be implemented globally.

REPORT

Program name : Webinar on Anthropology, understanding humans.
Date of activity : 03/03/2018
Venue : Online.
Organized by : Dept. Of Zoology.
Number of participants : 83.

Objective of the program

The genesis and development of human civilizations and cultures are the subjects of anthropology. People's learned behaviours, including their languages, belief systems, social structures, organizations, and material possessions, are referred to as culture. Through a range of methods, anthropologists investigate the traits of historical and present human populations. They achieve this by looking into and describing the historical lifestyles of various populations around the world.

Topics Covered:

- Our ancestors.
- What is anthropology.
- Subdisciplines of anthropology.
- Birth and evolution of languages.
- Religion.
- Origin of culture.
- Creating economies.
- Tribal wars.

A BRIEF REPORT OF THE SEMINAR ORGANIZED BY DEPARTMENT OF ECONOMICS ON 21ST DECEMBER 2018 ON THE TOPIC "PRICE ELASTICITY OF DEMAND: ITS RELEVANCE IN MICRO ECONOMICS".

I am very delighted to present a brief report of a seminar organized by department of economics on 21st december 2018 on the topic "price elasticity of demand: its relevance in micro economics".

The objective of the seminar:

- To analyze the relationship between the price elasticity of demand and total revenues.
- To understand how elasticity helps us identify how much a change in price will affect market behaviors.

The Head department of Economics Dr Neena Singh job have taken the initiative of organizing the seminar. Different Department of Anwarul uloom college have also extended their immense support.

According to the schedule , the programme started at 12:00 p.m. Mohammed Abu Bakar siddiq, Assistant Professor, Arabic Department, opened the session with a recital of the qhirath. Prof. Ahmed Baig, Director of the Anwarullom Group of Institutions, lit the customary lamp by his speech to start the programme.

The resource person, Dr. Etikala Prushotam who is working as an assistant professor in Nizam college Gunfoundry began his talk to the audience in a very attention-grabbing manner.

In his speech, he has discussed elasticity is important to pricing decisions because it helps us understand whether raising prices or lowering prices will enable us to achieve our pricing objectives.

The programme came to an end by 2.30 pm with a vote of thanks delivered by Bushra siddiq, assistant professor department of economics.

OUTCOMES OF THE SEMINAR

- It helped the audience understand that if we make a small change in price, it will have a dramatic impact on the demand for the product or only a small impact or not?
- Price elasticity is the measure of the market's response to price changes.
- It also helped the audience understand whether a discount drive increased sales? Will a price increase cause us to lose many buyers or just a few?
- Everyone were able to answer these questions in order to select the most effective pricing strategy.

A BRIEF REPORT OF THE WEBINAR ORGANIZED BY DEPARTMENT OF ECONOMICS ON 20th SEPTEMBER 2019 ON "THE IMPACT OF MONETARY POLICY ON ECONOMICS STABILIZATION".

I am very delighted to present a brief report of a the webinar organized by department of economics on 20th september 2019 on "The impact of monetary policy on economic stabilization".

The objective of the seminar:

- To know various tools or instruments of monetary policy which can be used to achieve economic and price stability by influencing aggregate demand or spending in the economy.
- To understand how these tools of monetary policy leads to an increase in reserves or liquid resources with the banks.
- To understand how expansionary monetary policy works to cause increase in output and employment and thus help the economy to recover from recession

The Head department of Economics Dr Neena Singh job have taken the initiative of organizing the webinar. Different Department of Anwarul uloom college have also extended their immense support.

According to the schedule , the programme started at 12:00 p.m. Mohammed Abu Bakar siddiq, Assistant Professor, Arabic Department, opened the session with a recital of the qhirath. Prof. Ahmed Baig, Director of the Anwarullom Group of Institutions, lit the customary lamp by his speech to start the programme.

The resource person, Dr. savithri M who is working as an assistant professor in Nizam college Gunfoundry began his talk to the audience in a very attention-grabbing manner.

In his speech, she has discussed the importance of Monetary policy is an instrument with which objectives of macroeconomic policy can be achieved.

She continued her speech stating that it should be however noted that in a developing country such as India, in addition to achieving equilibrium at full employment or potential output level, monetary policy has also to promote and encourage economic growth both in the industrial and agricultural sectors of the economy.

The programme came to an end by 3.30 pm with a vote of thanks delivered by Bushra siddiq, assistant professor department of economics.

OUTCOMES OF THE WEBINAR

- The audience came to understand how to ensure economic stability at full-employment or potential level of output with monetary policy.
 - The audience got to basic knowledge how price stability is achieved by controlling inflation and deflation.
 - The audience also understood the importance of monetary policy to promote and encourage economic growth in the economy.

Brief profile:

He is currently working as Professor in the Department of Computer Science and Engineering, Visakha Institute of Engineering and Technology.

Outcome:

The participants are able to understand modern technologies and large Data tools, companies need skilled data professionals. These professionals will include data scientists, data analysts, and data engineers to work with the tools and make sense of giant data sets. This is often because data handling tools have evolved rapidly, but in most cases, the professionals haven't. Actionable steps got to be taken to bridge this gap.

A Workshop
On
Effective Classroom Management
Kakatiya Vidya Niketan High School
June 7, 2018

*The purpose of education is to produce not just good learners,
but also good people*

School was the longest vacation I ever had in my lifetime!!
Then life happened and I never got a vacation again...

Ability to establish, maintain and restore the classroom as an effective environment for teaching and learning (basic aim) leads to general effectiveness as a teacher

Variety of skills and techniques that teachers use to keep:

1. Students organized
2. Orderly
3. Focused
4. Attentive
5. On task

All this to be academically productive during a class
We can avoid /stop disorder and wastage of time.

Objectives:

- Supports proper execution of curriculum
- Developing best teaching practices
- Students achieve given learning requirements and goals

Teaching and Learning Process

Four Aspects:

1. Teachers' Learning-Preparation, parallel /other reading &planning
2. Teaching – process, methods or techniques of teaching
3. Learning- response, queries comprehension
4. Students' Learning-follow up, practice & student results

1. **Teachers' Learning:** Preparation, parallel /other reading &planning

Restorative practices: By Emily Eilers

Caring, Empathy, Kindness and Being Supportive is the key to success and effective de-escalation

2. Teaching: process, methods or techniques of teaching

Activity:

What development have you seen in yourself in these years?

What steps do you take to prepare for the lesson?

Teaching techniques, Reading, preparation, visual aids & lesson plan

a) Use Humor and make your teaching light hearted

This is a sure way to get your students hooked to the essential content

b) Use graphs, PPTs, Videos, Audio-Visual aids, pictures and Que cards to enhance the quality of teaching.

c) Single out the black sheep. Tell such students to demonstrate their intelligence in other ways

3. Learning: response, queries and comprehension(don't be complacent-satisfied if learning doesn't take place)

4. Students' Learning: follow up, practice & students' results

Group Discussion on challenges faced by teachers in classroom management

**A Workshop
On
Classroom Communication & Time Management
Kakatiya Vidya Niketan High School**

June 8, 2018

Classroom Communication

For smooth execution of teaching and learning process, there is a need for clear, concise and meaningful classroom communication.

It exists in three categories: Verbal, Nonverbal and written.

Students must be taught to communicate respectfully, especially in the classroom.

20% teacher and 80% student Communication helps students develop their speaking skills

CLIL (Content Language Integrated Learning)

Good Communication Practices:

- Use proper tone that is honest, choosing words that are suitable to the situation and non-inflammatory
- When listening, make eye contact and focus on the speaker
- Speak in turns, never interrupt the speaker. Teachers who model respect with their students have respectful classrooms because students learn how to communicate respectfully.

Teachers' Role

1) Repeat your messages in a different way

Effective communication requires using different techniques in communication. Consider using visual tools like a chart or a graph to help students remember. In lecture method, offer or show hand-outs that outline the points. Give the students something to do that reflects your idea. Repeat the information twice and give something for students to look at, hold, or do that will reinforce your message.

2) Check for Understanding

A teacher should always check for understanding. Students can write down one sentence that summarizes what they think the lesson was about, or they can write a question they have about the lesson. A teacher should ask the student to repeat the main point.

3) Nonverbal Communication

Everyone communicates nonverbally through facial expressions and gestures. Effective communication in the classroom requires careful use of these nonverbal cues (signs). A disapproving stare can work wonders on a student who is off task. A bright smile for a student who is having a bad day means more than he will ever reveal. Gestures and animated facial expressions also give weight and enthusiasm to what a teacher has to say. Students who see a teacher actively engaged in what she is teaching will be much more engaged themselves.

Help Students communicate effectively

Activities:

1. Watching a Video clip or picture

Body Language

Eye Contact

Summarizing

Paraphrasing

Responding

2. Use technology.

There is a multitude of technological resources you can use for improving student communication skills. Mobile voice recording apps and vocaroo.com

3. Reinforce active listening.

Communication isn't just about speaking; it's also about listening. Teachers can help their students develop listening skills by reading a selection of text aloud, and then having the class discuss and reflect on the content.

Active listening also means listening to understand rather than reply. Encourage students to practice asking clarifying questions to understand the message.

4. Offer group presentations and assignments.

Team-building exercises can also help students sharpen both oral and written communication skills. Not only does it offer students the chance to work in small groups, thereby reducing some of the pressure, but it also gives them the opportunity to debate their opinions, take turns (Students follow etiquette of speech)

5. Ask open-ended questions.

Because they require more than a one- or two-word response, open-ended questions are vital for inspiring discussion and demonstrating that there are multiple ways to perceive and answer a question. "what did you like best about the song?" rather than simply "did you like the song?"

6. Use tasks and activities that foster critical thinking.

Another task-based method for improving student communication skills is through critical thinking exercises. These can be done verbally or through written assignments that give students the chance to answer questions creatively using their own words and expressions.

7. Find teachable moments.

Whatever the age group you are working with, maximize on the everyday happenings in the classroom environment. Allow the class to ask clarifying questions.
