## PROGRAMME REPORT

**Name of the Program** : World Environment Day celebration

**Dates** : 5th June 2024

**Program Coordinator** : Mrs Ruksana Nausheed

**Students Participated** : 65

### Objectives of the Program:

- To know the importance of Healthy Environment .
- To know how the Environment plays an important role in healthy living and existence of life on Earth.
- To learn the vital role in keeping living things healthy in the Environment .
- To comprehend how the natural assets like Forests, rivers, Oceans provide us the food we eat, the air we breathe and the water we irrigate our crops..
- To understand the functions of environment for our sustainable life on planet Earth.

### Outcomes of the Program:

- Participants get an in-depth understanding of importance of Healthy Environment.
- Participants understand the basic concept of the protection of our Environment .
- They gain a deeper comprehension of the concept of ‘ Reuse, Reduce, Recycle ‘
- Participants become familiar with information regarding imbalance in environment due to industrialisation, deforestation, construction and increased vehicles on the road •
- Get acquainted with the processes involved in making our environment better for sustainable existence of life on earth.
- Students from different colleges have participated in the program.

## Program Report

**Name of the event:** Preparation of Terrarium

**Date:** 05 – Feb -2024

**Venue:** Department of Botany

**Name of the resource person:** Mr. Naveed Ahmed

**Number of participants:** 25

### Objectives

- Students will learn and gain valuable knowledge about terrariums and the environment around them.
- Students will keep daily records of what is going on in their terrarium environments.
- Students will construct their terrariums.
- Students will demonstrate their findings about their terrariums to the class.

### Learning Outcomes

- Students will construct and maintain a model of a natural habitat and use it to make observations and collect information about live organisms.
- Students will suggest improvements to the model of the natural habitat to make it more realistic and habitable for organisms.
- Students will demonstrate the processes of careful observation and recording to investigate how animals survive in their habitat.
