PROGRAM REPORT

Program name : Educational trip to Freshwater Biology Regional Centre.
Date of activity : 08/09/2023
Venue : Freshwater Biology Regional Centre, Zoological Survey of India.
Organized by : Department of Zoology.
Number of participants : 50

Objective of the program

Freshwater habitats are an abundant source of diverse flora and fauna which play an important role in maintaining a healthy environment and a lot of which is economically important to us. Conserving any threatened species and making sure they are recovering from the damage is our responsibility. This educational trip aims to educate all the participants about the different aspects of freshwater biology and how we can conserve the freshwater biodiversity.

Topics Covered:

- Introduction to freshwater biology.
- Examining samples collected from different freshwater bodies in the city.
- Analysis of the samples.
- Organisms found in those samples.
- Threats which the freshwater habitats are facing.
- Genome study of the organisms.
- Threats which the freshwater habitats face.
- How to conserve freshwater habitats.

Outcome of the program

Dr Deepa Jaiswal gave an informative seminar on the history and establishment of FBRC in Hyderabad. She instructed everyone present on the various facets of freshwater biology and the preservation of freshwater biodiversity, also enlightened the students about career prospects in research and encouraged them to become research analysts. Students were highly motivated by her informative speech. It was new and informative experience for all of the participants.

On 08/09/2023, 50 people participated in the educational trip to Freshwater Biology Regional Centre.

DEPARTMENT OF HISTORY

Report on Historical Trip to Bidar Fort

TITLE: Historical trip to Bidar Fort

Preamble:

One day historical trip to Bidar fort was organised by the department of history, Anwar ul uloom college, New Mallepally, Hyderabad on 19th October 2023 in order to impart knowledge of Bidar fort to the students of BA and intermediate.

The convenors of the trip were Mr. K Felix and Mrs Asma Parveen

DESCRIPTION OF THE TRIP:

50 students of BA and Intermediate gathered at 6am at college campus and after taking attendance and collecting consent forms from the students, the students along with faculty members board the bus and the journey to Bidar Started at 6:45am by 11am we reached Bidar fort. It was a magnificent site of the fort. Bidar fort is located in the old city area Bidar, Karnataka, India. Sultan Ahmed shah of the Bhamani dynasty shifted his capital from Gulbarga to Bidar in 1427 and build this fort along with a number of Islamic monuments. It was made of laterite and lime mortar material.

After visiting Bidar fort we went to see Madrasa of Mahmud Gawan ,the Bahmani dynasty celebrated Persian origin prime minister ,who served from 1458 to 1481 CE. It is a unique monument, similar in plan and design to madrasas in Central Asia .This madrasa was once a major centre for learning with free accommodation for about 1000 students. Then we had our lunch biryani with ice cream & then started the return journey to our homes. Really it was the pleasant experience. The visit enhanced our knowledge about this great historical fort and our rich culture & tradition.

Anwarul Uloom College (Autonomous)

(Affiliated to Osmania University)

Accredited with A+ Grade by NAAC

New Mallepally, Hyderabad- 500001, T.S., India.

Outcomes of the Bidar Trip .

students gain knowledge of the Bidar fort and the madrasa of Mahmud Gawan and the Art & Architecture.

Feedback:

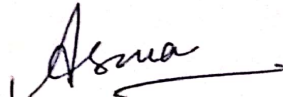

The feedback was very good, the students were interested to know more about such great forts and wished to have such more historical trips.

FUTURE PRESPECTIVE:

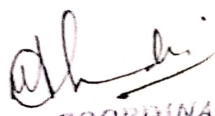

The department of History is Planning to take the students for more historical trips to make them aware of our rich heritage & culture.

Report:

Report on Awareness program on Mental Health .

Title Mental Health Theme - *Soundness of Mind - It's a Human Right*

Preamble ; St . Georges Degree and PG college for Women organized an awareness program on Mental Health , Themed - *Soundness of Mind - It's a Human Right* students culpability on 3rd November 9, 2023 at Hira Hall , opp college premises , Abids -Hyderabad at 11 am.

Description of the Program

One day awareness program was arranged at Hira Hall Abids at 11 am. The program started with a prayer followed by the welcome speech given by Mrs Suman. Guest of Honour Dr P. Swathi ,BOS Department of Psychology, Osmania University address the gathering and gave valuable suggestions to the students and make them aware of Mental Health .

Chief Guest Hon'ble Former Justice Shri B Chandra Kumar High Court State of Telangana delivered his speech and and through light on Human Rights relating to girls.

A cultural program including drama dance depicting various forms of expressions like stress, anxiety , fear , happiness , sadness etc were brilliantly performed by the students .

Anwarul Uloom College (Autonomous)

(Affiliated to Osmania University)

Accredited with A⁺ Grade by NAAC

New Malleshpally, Hyderabad-500034, T.S., India

A great musical performance was given by well known singer Mr Ritesh to soothen our minds. It was mind blowing. Lastly vote of thanks was given by Mrs Khairunnisa, faculty of Psychology.

After the program the students enjoyed the delicious food at the food court arranged by the students.

Outcomes of the awareness program

The program promotes applying mental health knowledge in general healthcare and social development.

Students when they are mentally healthy they can enjoy the life and environment.

Along with physical health mental health is very important.

Feedback

The feedback given was superb they wish to have more awareness programmes in future.

Future Perspective

The Department of History is planning to conduct more programs relating to the Human Rights.

PROGRAM REPORT

Program name	: Educational trip to ICAR-Directorate of Poultry Research
Date of activity	: 11/01/2024
Venue	: to ICAR-Directorate of Poultry Research
Organized by	: Department of Zoology.
Number of participants	: 40

Objective of the program

The objectives of the Directorate are to coordinate and conduct research on the development and improvement of chicken lines for commercial and rural poultry production. The ICAR-Directorate of Poultry Research is one of the constituent research institutes of the Indian Council of Agricultural Research (ICAR). The Directorate was set up as a coordinating unit of All India Coordinated Research Project (AICRP) on Poultry.

Topics Covered:

- The ongoing research programmes at DPR were focused and explained to students about research relevant to societal needs, and application-oriented research towards commercialization.
- These include the areas of poultry and duck breeding, molecular genetics, applied nutrition, immunomodulation, disease diagnosis and health management etc. Examining samples collected from different freshwater bodies in the city.
- DPR has taken lead in the promotion of rural poultry farming through propagation of chicken varieties, Vanaraja, Gramapriya and Srinidhi.
- DPR scientists received many prestigious awards including the ICAR team research award for outstanding achievements.

Outcome of the program

Dr Niranjana gave an informative seminar on the history and establishment of ICAR in Hyderabad. He also enlightened the students about career prospects in Research and encouraged them to become Research Analysts. Students were highly motivated with his informative speech. It was a new, interesting and informative experience for all of us. Then, we took group photographs with all the Researchers and thanked them for their support and cooperation.

On 11/01/2024, 40 students participated in the educational trip to ICAR-Directorate of Poultry Research.

PROGRAM REPORT

PROGRAM NAME: INDUSTRIAL VISIT TO IHM

DATE OF ACTIVITY: 12.01.2024

ORGANIZED BY :- DEPARTMENT OF NUTRITION AND DIETETICS.

NUMBER OF PARTICIPANTS:- 75

OBJECTIVES OF THE PROGRAM:

The objective of the trip was to help students understand "HACCP" plan for different Recipes with respect to their food ingredients based on perishability of foods, different Critical Control points in Recipe preparation, the curriculum subjects like food service management and food hygiene and sanitation. The college is run by the Govt. of India. The students would learn the use of different kitchen equipment, types of menu and types of spaces etc. and at the same time need to maintain the hygiene and sanitation of not only the personal hygiene but also the importance maintaining it in the surrounding.

Program Report

Place Visited: Forest College and Research Institute (FCRI).

Date: 01-Feb-2024

Organized by: Department of Botany

Number of participants: 2 Faculty members, 34 Students

The Department of Botany organized a one-day visit to Forest College and Research Institute (FCRI) on 1st February 2024. The students of B.Sc. and MSc actively participated in the event. The field trip was headed by Dr. Hafsa Azra, who planned the visit to enhance the student's practical skills, and this will push them to take learning into their own hands and build a habit of doing it more.

Objectives of the field trip:

The main objective of conducting a field trip is to enhance learning by providing a dynamic and immersive educational experience outside of the classroom, fostering a deeper understanding of the subject matter and promoting personal growth.

Some of the significant topics which were emphasized were

1. Evaluate the results of new practice.
2. Develop creativity skills among students.
3. Improve social interaction among students.
4. Participate in learning experiences that are generally not available in the classroom but are essential for sound training in development policy and administration.
5. To obtain baseline data and refresh students' knowledge.

Date: _____

Outcomes of the visit

Going on a field trip enhances their critical thinking skills and allows students to think about a topic or theme from a different perspective.

- Students can learn about various aspects of forestry and research in the field. The college and research institute will provide valuable information and insights into forest management, conservation, and sustainable practices.
- Students might have the chance to participate in practical activities, such as field trips, where They can observe and learn about different forest ecosystems, tree species, and wildlife. This hands-on experience can deepen understanding of the subject matter.
- Forest College and Research Institute often conduct cutting-edge research projects. By visiting, students get a glimpse into ongoing research initiatives, which can inspire and motivate them to pursue their research interests.

Program Name: Field Trip

Date of activity: 1st Feb 2024

Venue: Wild waters, Shankarpally, Hyderabad

Organizing Department: Department of Biotechnology

Number of Participants: 100

Objective of the Program:

1. Recreation and enjoyment: One of the main objectives of taking students on a field trip is to provide them with a fun and enjoyable experience outside the classroom. It can serve as a break from the routine of classroom learning and provide an opportunity for students to relax and rejuvenate.
2. Socialization and team building: A field trip can also help students socialize and build relationships with their peers and teachers. It can help create a sense of community and promote teamwork and collaboration.
3. Exposure to nature: A field trip can also provide students with an opportunity to connect with nature and learn about the environment. They can observe and appreciate the beauty of nature and learn about the flora and fauna of the area.
4. Educational value: A field trip can also be used as an educational tool, where students can learn about history, culture, and geography by visiting historical sites, museums, or cultural events.

Topics Covered:

- Recreation
- Socializing
- Motivation

Outcome of the Program:

1. Increased engagement and motivation: An enjoyable and engaging experience like a Field trip can motivate students to participate more actively in the classroom and school activities.
2. Improved relationships and communication: A Field trip can help break down barriers and promote positive relationships and communication between students and teachers. It can help build trust and respect, leading to a more positive classroom environment.
3. Improved mental and physical health: A field trip can also promote mental and physical health by providing students with an opportunity to be active, socialize, and relax in a natural setting.
4. Enhanced learning: A well-planned field trip that incorporates educational activities can enhance learning by providing students with hands-on experiences that can reinforce classroom learning and spark their curiosity and interest in a subject.

INDUSTRIAL VISIT
to Varsha Bioscience and Technology India
Private Limited

Purpose: Industrial Visit

Date: 05th March, 2024

Participants: M.Sc. Microbiology Students

Trip Location: Varsha Bioscience and Technology India Private Limited,
Sy.No. 253/A, Jiblakpally, Dothigudem (GP),
Boodhan ochampally (M), Yadadri District - 508284,
Telangana, India

Organizers: Department of Microbiology, Anwarul Uloom College, Hyderabad &
Department of Microbiology, Nizam College, Hyderabad.

Introduction:

Anwarul Uloom College, Hyderabad, organized an industrial visit for M.Sc. Microbiology students to Varsha Bioscience and Technology India Private Limited, located in Yadadri District, Telangana, India. This visit aimed to provide students with practical and industrial exposure to the production processes of biopesticides, biofertilizers, and other agricultural products, including plant tissue culture.

Objectives of the Visit:

- To get the industrial exposure.
- To understand the production process of various, bio-control agents including biopesticides and biofertilizers.
- To gain insight into the research and development activities at Varsha Bioscience.
- To get the knowledge of fermentation technology.
- To observe the application of microbiological techniques in the industry.
- To learn about plant tissue culture and its significance in agriculture.
- To understand the practical applications of microbiology in agricultural biotechnology.
- To learn about the quality control measures and standards maintained.

Industrial Trip Details:

Arrival and Welcome

The Department of Microbiology, Anwarul Uloom College, M.Sc. Microbiology students, accompanied by their faculty members, arrived at Varsha Bioscience and were warmly welcomed by the company's representatives and the General Manager. The visit commenced with a brief introduction to the company and its operations.

Introduction to Varsha Bioscience and Technology

A presentation was given by the company's officials, providing an overview of Varsha Bioscience's mission, vision, and the range of products they manufacture. The emphasis was on sustainable agricultural practices and the importance of biotechnology in enhancing crop productivity.

About Varsha Biosciences:

Varsha Bioscience and Technology India Pvt. Ltd. (VBTIPL) is a renowned agricultural biotech company offering complete solutions using various bio-control agents including bio-fertilizers, bio-pesticides, and bio-fungicides, bio-insecticides, bio-chemicals, bio-nematicides, and plant growth regulators. Our entire range of bio-control products can be very well used in intensive and integrated as well as in organic farming. These are green products and leave no toxic residue in the soil and environment and are completely safe for humans.

Visit to Research and Development (R&D) Department at Varsha Biosciences:

The students were given a guided tour of the research and development laboratories. They observed the isolation, characterization, and production processes of various bio-control agents. The R&D team explained the significance of each step and the microbiological techniques employed. The visit included an interaction with the R&D team, where students learned about ongoing research projects aimed at developing new and improved bio-products. The R&D team explained the methodologies used in strain improvement, product formulation, and efficacy testing.

Production Unit Visit:

The visit proceeded to the production units where bio-fertilizers, bio-pesticides, and other products are manufactured. Where the students were taken on a guided tour of the production facility. They observed the manufacturing processes of biopesticides and biofertilizers, starting from raw material handling to the final packaging of the products. The tour included the following sections. Students witnessed large-scale fermentation processes, formulation, and packaging operations. The staff highlighted the importance of maintaining sterile conditions and adhering to stringent quality control measures. Moreover, Varsha Biosciences are also pioneer in Vascular Arbuscular Mycorrhiza (VAM) biofertilizer production.

Department of Microbiology

Quality Control and Assurance Unit:

A detailed session on quality control and assurance was conducted. The students learned about the various tests and standards that ensure the efficacy and safety of the bio-control agents. The quality control team demonstrated some of the testing procedures and discussed the regulatory requirements for bio-products.

Packaging and Storage Units:

Where the finished products are packed and stored before distribution.

Plant Tissue Culture Lab visit:

The students were introduced to the plant tissue culture laboratory, where they observed the process of cloning plants through tissue culture techniques. This section highlighted the importance of tissue culture in producing disease-free and high-yielding plant varieties.

Interactive Session with experts and Q&A

The visit included an interactive session with the experts and scientists at Varsha Biosciences. An interactive session was held where students had the opportunity to ask questions and discuss their observations with the company experts. This session provided valuable insights into the practical challenges and solutions in the field of agricultural biotechnology. The experts shared their experiences and provided valuable career advice.

Conclusion and Acknowledgements:

The visit concluded with a vote of thanks from the faculty members and two M.Sc. Microbiology Students of Anwarul Uloom College, expressing gratitude to Varsha Bioscience for their hospitality and the invaluable learning experience provided to the students.

Lastly, Head, Department of Microbiology, Anwarululoom College, presented a Memento to the Dr. Ventakeshwar Rao, General Manager & Managing Director, Varsha Biosciences.

Learning Outcomes:

The industrial visit to Varsha Bioscience and Technology India Private Limited was highly beneficial for the M.Sc. Microbiology students. Key learning outcomes included:

- Gained the industrial exposure.
- Enhanced understanding of the role of microbiology in agricultural biotechnology.
- Practical insights into the production and quality control of bio-control agents.
- Awareness of the environmental and safety aspects of using green products in farming.
- Exposure to career opportunities in the biotech industry.
- The production processes of biopesticides and biofertilizers.
- The application of microbiological techniques in agricultural products.
- The role of biotechnology in sustainable agriculture.

Department of Microbiology

Conclusion

The visit was a successful endeavour, bridging the gap between theoretical knowledge and practical application. It provided the students with a deeper understanding of the industrial processes involved in the production of bio-products and the importance of biotechnology in enhancing agricultural productivity. Such visits are instrumental in shaping the future careers of students by providing them with real-world insights and inspiring them to pursue innovative solutions in the field of microbiology and biotechnology.

The visit concluded with a feedback session where students shared their experiences and learnings. The faculty members expressed their gratitude to the Varsha Biosciences team for their hospitality and the informative tour.

Acknowledgments:

Anwarul Uloom College, Hyderabad extends its sincere thanks to Varsha Bioscience and Technology India Pvt. Ltd. for hosting the industrial visit and providing an enriching learning experience. Special thanks to the Director, staff, General Manager and experts at Varsha Biosciences for their valuable time and knowledge.

Subject: Request for Industrial Visit for M.Sc. Microbiology Students on March 2nd, 2024.

Dear Sir/Madam,

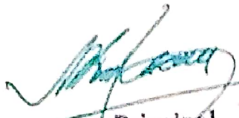

I am writing on behalf of Department of Microbiology, Anwarul Uloom College to request an industrial visit for the M.Sc. Microbiology students of our institution to your esteemed facility.

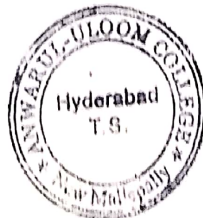

We sincerely appreciate your acceptance of our request and for providing an appointment for the visit to your esteemed industry on 02-03-2024.

This visit will be of significant value as it will offer our students valuable awareness into the Microbiology & Biotechnology industries and provide them with industrial exposure that complements their academic studies.

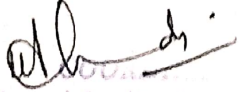

We are grateful for your time and consideration in facilitating this educational & industrial tour.

Warm regards,
