7.3.1 - Institutional Distinctiveness:

The college, a recognized minority institution under Article 30(1) of India's Constitution, aims to provide modern education while fostering nationalism, patriotism, and social responsibility. To achieve this, the college emphasizes enrolment in the NCC (National Cadet Corps) and NSS (National Service Scheme), offering separate wings for boys and girls with full participation. These units have gained recognition as some of the best in Telangana, winning numerous awards.

The NCC unit offers theoretical and practical training, with Army personnel regularly inspecting activities. The cadets participate in various national and international camps, competitions, and community service programs. They take part in events like International Yoga Day, Swachh Bharat clean-up drives, and Haritha Haram tree-planting initiatives. The unit also organizes blood donation camps, health check-ups, and pandemic relief efforts, distributing food and supplies to the needy.

The NCC cadets participate in cultural events, Republic Day parades, and are often selected for roles in the Indian Army and police. Unique to this college, NCC is offered as an elective subject for undergraduate students, with exams and credits. The college successfully encourages girl students to actively join and engage in NCC activities.
