## PROGRAM REPORT

**Program Name:** Diploma in Medical Lab Technology (DMLT)

**Organizing Department:** Department of Biotechnology

**Number of Students:** 20

**Date:** July 2024 to June 2025

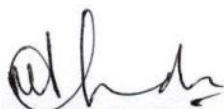

**Faculty Name:** Ms. Mahjabeen Tarranum & Dr. Shazia Ahmad

### Objective of the Program:

1. To produce good Lab Technologists, of Skills, Competence and Integrity.
2. To train the students to carry out laboratory investigations accurately and provide reliable reports to facilitate proper diagnosis and prognosis of diseases.
3. To make awareness on the principles underlying the organization of a Clinical Laboratory.
4. To enable to perform routine as well as special investigative procedures in different specialties of Medical Laboratory Technology
5. To develop knowledge and skill in accordance with the demand in the field of Medical Laboratory Technology.

### Topics Covered:

- Biochemistry
- Human Anatomy
- Pathology
- Human Physiology
- Health Education and Health communication
- Bio-Medical waste management

**Organisation:** Anwarul Uloom College

**No.of Students:** 85

### OBJECTIVES OF THE PROGRAM:

- Introduce fundamental concepts of business intelligence, including data warehousing, data mining, and reporting.
- Provide knowledge of technical components and theories behind BI systems.
- Develop an understanding of how to leverage BI and analytics to address critical business issues.
- Familiarize students with different types of analytics, including descriptive, predictive, and prescriptive.

### TOPICS COVERED:

- Course introduction and preparation
- Framework for Business Intelligence
- Data visualization and storytelling
- Building Visualization
- Major Tools and Techniques of Business Intelligence
- Implementation of Business Intelligence and Integration
- SQL
- Power

## OUTCOMES OF THE PROGRAM:

- **Data Analysis and Visualization:** Students will be able to analyze and visualize data, create effective charts and interactive dashboards using BI tools like [Tableau](#) or [Power BI](#), and derive meaning from reports and graphs.
- **BI Solution Design:** Students will be able to design customized BI solutions, including decision support systems, by understanding concepts like data warehousing, fact tables, and dimension tables.
- **Application of Analytics:** Students will be able to apply various analytics techniques to real-world business problems.
- **Decision Support:** Students will be able to use BI tools and techniques to support and influence business decisions.
- **Knowledge Management:** Students will be able to understand and apply knowledge management principles within the BI context

## C I R C U L A R

All the students of **I, II and III years** are here by instructed to join the Certificate Courses offered by the Department of Commerce which will be conducted from 02<sup>nd</sup> SEP 2024 TO 30<sup>th</sup> SEP 2024

**The following Value Added Courses are offered for:**

4. B.Com. (I-Year) All Streams:

CLOUD COMPUTING

5. B.Com. (II-Year) All Streams:

BUSINESS INTELLIGENCE

6. B.Com. (III-Year) All Streams:

ARTIFICIAL INTELLIGENCE

Interested students can register their names with the corresponding department coordinators on or before 30<sup>th</sup> **AUG. 2024**

Classes shall begin from **02<sup>nd</sup> SEP' 2024.**

## REPORT

**Name of the programme:** Certificate course on “Artificial Intelligence”

**Date :** 01 Sep'2024- 30- Sep'2024

### Details of Resource Person:

**Name:** Mohd Amjad & Mohd Ahmed Mohiuddin

**Designation:** Asst. Professor

**Organisation:** Anwarul Uloom College

**No.of Students:** 80

### OBJECTIVES OF THE PROGRAM:

- **Foundation:** Provide students with a strong foundation in the fundamental concepts of Artificial Intelligence and its subfields.
- **Techniques:** Introduce core AI techniques, such as search algorithms, knowledge representation, and machine learning.
- **Applications:** Expose students to the practical applications of AI across various industries and real-world scenarios.
- **Ethics and impact:** Foster an understanding of the ethical, social, and economic implications of AI technologies.
- **Skills development:** Enable students to develop practical skills in implementing AI models and solving problems using AI techniques.

### TOPICS COVERED:

- Introduction to Python
- Machine Learning Concepts
- Supervised Learning
- Unsupervised Learning
- Applied Statistics
- Natural Language Processing
- Face Detection

- TensorFlow and Neural Network
- Motion Analysis and Object Tracking

## OUTCOMES OF THE PROGRAM:

- **Conceptual understanding:** Students will be able to define, explain, and differentiate between various AI concepts, technologies, and their historical development.
- **Problem-solving:** Students will be able to apply AI techniques, such as search algorithms and machine learning, to solve problems and implement solutions using programming languages like Python.
- **Application analysis:** Students will be able to identify and analyze real-world AI applications across different domains and discuss their potential and limitations.
- **Ethical reasoning:** Students will be able to critically analyze and discuss the ethical considerations of AI, including bias and societal impact.
- **Practical implementation:** Students will gain practical experience in developing and implementing AI and machine learning models.
